Writer's Workshop “Scientific Writing for Computer Science” summer semester 2016

Prof. Dr. Dietmar Rösner | Katrin Krieger, M.A.

Seminar (SMK) 6 ECTS

So you want to write ...

- **#YESWETALK**

input through short presentations,
individual work

- **#YESWEREAD**

reading material, reviews/feedback
to others students' work

- **#YESWEWRITE**

writing exercises, homework,
student project, writing prompts

For the credit points ...

- regular class attendance
- submission of homework assignments
- successful submission for the student project
- Participate in classroom discussions

What you can expect from this course ...

- a lot of input, reading material, writing opportunities, good advice
- a lot of work
- a relaxed and pleasant atmosphere to work in
- lots of fun

I HAVE NO IDEA
WHAT'S GOING
TO HAPPEN.

AND I LOVE IT.

What we expect ...

- You really WANT to learn and practise writing.
- You are committed to this course and stick with us until the end of the semester
- You use all the resources we offer you (materials, communication channels, tutors)
- Respectful and appropriate interaction with each other
- You bring writing materials to class

Student Project

- A state of the art paper with at least 8 pages
- You propose a topic
- Homework as building blocks
- Individual research
- 3 phases: first version – reviews – final version
- Review for the submission of 2 other students
- more details to follow

Our central hub: The Blog

- Weekly recap posts for the sessions
- homework
- Posts on all things reading and writing
- Student Project – submissions and reviews
- Feedback through comments
- Hashtag [#FINwritersworkshop](#)
